In their contacts with Kuznetsov party and other Russians in New York, all members USDEL should avoid being drawn into discussion of issues which have arisen in the course of present crisis other than immediate and central one of dismantling and removal of offensive weapons from Cuba.

DEPT expects that ~~EXAMINING~~ operating discussions with Soviet GADEL on GA agenda subjects such as nuclear testing and disarmament will continue normally. But any eagerness on their part to pursue wider agenda (which at proper time US will also wish to pursue) should be channelled into efforts to get those weapons ^{removed} ~~disposed~~ from Cuba.
